Statistical Division, United Nations. (2017). Live births by sex and urban/rural residence, Republic of Korea. UNSD Demographic Statistics Database (Public Version of DYBNET). Retrieved 23 August 2017 (<http://data.un.org/Data.aspx?d=POP&f=tableCode%3a4>).

Comments

(Births) Births by sex, 1975-1980. Birth counts exclude alien armed forces/civilian aliens employed by armed forces/foreign diplomatic personnel and their dependents (ValueFootnotes=1 in the DYBNET database). [We are not using data from this source after 1980: For 1984, the database includes total births (both sexes combined) by both Year of Occurrence and Year of Registration; we kept only the counts by year of occurrence (Record Type Code-1). For 1996, there are two sets of birth counts: the first set includes nationals outside the country based on unrevised data (ValueFootnotes=1,4), whereas the second set does not (ValueFootnotes=1,2). For 1997-2006, there are two sets of birth counts: the first set includes nationals outside the country based on unrevised data (ValueFootnotes=1,3,4), whereas the second set does not (ValueFootnotes=1,2). To maintain better consistency with the birth counts for 2007-2017, we retained the second set of birth counts for 1996-2006 (ValueFootnotes=1,2). Birth counts for 1981-2017 refer to the residence of the child (ValueFootnotes=2).]
